LED Mesh Screen

Ultra lightweight
reduces building load-bearing capacity
simple steel structure

IP66
waterproof rating

① High Transparency
Transparency is up to 90%

② Good Flexibility
Flexible led modules, any irregular shape or size could be customized.

③ Lower Power Consumption
Energy saving for cost effecting

④ Fast Installation
Fast installation and removal without screws, also apply
to the hot and cold metal installation.

Commercial Stage
The LED Mesh Screen is used in the stage of the Commercial Stage, which can be used for the stage of the Commercial Stage, which can be used for the stage of the Commercial Stage.

Landscape Lighting
The LED Mesh Screen is used in the landscape lighting, which can be used for the landscape lighting, which can be used for the landscape lighting.

Creative Display
The LED Mesh Screen is used in the creative display, which can be used for the creative display, which can be used for the creative display.

Performance Arts Event
The LED Mesh Screen is used in the performance arts event, which can be used for the performance arts event, which can be used for the performance arts event.
